

ProCurve Manager 2.3

ProCurve Manager is a Windows-based network management solution that is a free downloadable software from the Web and is in-box with selected manageable ProCurve devices. It provides all the basic tools needed to handle a network effectively, along with a 30-day trial version of ProCurve Manager Plus 2.3.

ProCurve Manager 2.3

Features and benefits

Additional information

- **Network status summary:** Upon boot-up, a Network Status screen displays high-level information on network devices, end nodes, and events. From here, the user can research any one of these areas to get more details.
- **Alerts and troubleshooting:** An Events Summary screen displays alerts to the user and categorizes them by severity, making it easier to track where bottlenecks and issues exist in the network. Alerts present detailed information on the problem, even down to the specific port. Users can be alerted to network issues via e-mail or pager.
- **Automatic Device Discovery :** ProCurve Manager uses IEEE's Link Layer Discovery Protocol, which allows fast discovery of all ProCurve manageable network devices and any device that supports the standard.
- **Topology and mapping:** The software automatically creates a map of discovered network devices. Maps are color-coded to reflect device status and can be viewed at multiple levels (physical view, subnet view, or VLAN view). Connection relationships between devices are drawn to reflect packet traffic lines.
- **Device management:** Some device-focused tasks can be performed directly by the software, or the user can access Web and command-line interfaces with the click of a button to manage individual devices from inside the tool.

Industry-leading warranty

- 90-day media warranty and one-year free phone support

Specifications

Software

	For networks having 50 to 250 managed devices, ProCurve recommends the following:
Minimum system hardware	2.0 GHz Intel Pentium 4 or equivalent processor 2 GB RAM memory 10 GB storage 1000 MB NIC for PCM+ as a standalone application, assuming a dedicated server
Recommended system hardware	3.0 GHz Intel Pentium 4 or equivalent processor 3 GB RAM memory 40 GB storage 1000 MB NIC for PCM+ assuming a dedicated server, and including ProCurve Identity Driven Manager, Mobility Manager, and Network Immunity Manager on the same server
Recommended software	Microsoft Windows 2003 Server Windows XP SP2 Windows XP Professional SP2
	For networks having 250 to 2,000 managed devices, ProCurve recommends the following:
Minimum system hardware	3.0 GHz Intel Pentium 4 or equivalent processor 3 GB RAM memory 40 GB storage 1000 MB NIC for PCM+ as a standalone application, assuming a dedicated server
Recommended system hardware	Intel Xeon or equivalent processor 4 GB RAM memory 80 GB storage 1000 MB NIC for PCM+ assuming a dedicated server, and including ProCurve Identity Driven Manager, Mobility Manager, and Network Immunity Manager on the same server
Recommended software	Microsoft Windows 2003 Server Windows XP SP2 Windows XP Professional SP2
Browsers	Microsoft Internet Explorer version 5.0 or later
Supported platforms	HP OpenView Network Node Manager version 6.41 or 7.01 or 7.5 (optional)
Additional requirements	NOTE: Network Immunity Manager when loaded on PCM+ 2.3 can sample up to 500 managed ports using sFlow or XRMON.

Notes

Unlimited license means that ProCurve does not impose a limit on the number of devices attached to the network as a condition of the license. Some degradation in performance may be expected the greater the number of devices attached to the network.

Specifications subject to change

ProCurve Manager 2.3

Accessories

ProCurve Mobility Manager 1.1 (J8990A)

ProCurve Mobility Manager 1.1 is a plug-in module for ProCurve Manager Plus 2.2 that provides a rich toolset to manage a ProCurve WLAN environment.

System requirements

Please see ProCurve Manager Plus for system requirements.

Notes

Requires ProCurve Manager Plus version 2.2 or greater. Not compatible with earlier versions of ProCurve Manager Plus.

ProCurve Identity Driven Manager 2.2 base product--500-user license (J9012A)

ProCurve Identity Driven Manager is a plug-in to ProCurve Manager Plus that dynamically applies security and performance settings based on user, device, location, time, and client system state -- 500 user license

System requirements

Please see ProCurve Manager Plus for system requirements.

Required platforms

Supported platforms

RADIUS server support

Free RADIUS
Funk Steelbeltd RADIUS Server
Microsoft IAS

Features

Intuitive Explorer-style interface
OpenView NNM integration
Application of policies by user identity
- Auto VLAN assignment

- Auto set quality of service by user
- Auto set bandwidth assignment by user
- Rule-based access rights deployment
- Dynamic rights assignment based on:
 - Time
 - Location
 - User system
- Auto-discovery of:
 - RADIUS servers
 - Realms
 - Users

Notes

The base product for Identity Driven Manager allows for managing up to 500 users. Customers may add users in quantities of 2,000 by purchasing J9014A.

ProCurve Identity Driven Manager 2.2 base product (upgrade from 1.0) (J9013A)

Identity Driven Manager 2.2 500-user upgrade from 1.0 allows existing 1.0 customers to get the features of 2.0, with a 500-user limitation.

System requirements

Please see ProCurve Manager Plus for system requirements.

Required platforms

Supported platforms

RADIUS server support

FreeRADIUS (on Red Hat ES3 or ES4 or SuSe Linux 9)
Funk Steelbeltd RADIUS Server
Microsoft IAS

Features

Intuitive Explorer-style interface
OpenView NNM integration
Application of policies by user identity
- Auto VLAN assignment

- Auto set quality of service by user
- Auto set bandwidth assignment by user
- Rule-based access rights deployment
- Dynamic rights assignment based on:
 - Time
 - Location
 - User system
- Auto-discovery of:
 - RADIUS servers
 - Realms
 - Users

Notes

This upgrade provides Identity Driven Manager 2.0, which allows for managing up to 500 users. Customers may add users in quantities of 2,000 by purchasing J9014A.

ProCurve Identity Driven Manager 2.2--add 2,000 users license (J9014A)

Adds support for 2,000 additional users to the base Identity Driven Manager 2.2 product

System requirements

This license adds support for an additional 2,000 users to the IDM base products of J9012A or J9013A

Recommended software

ProCurve Network Immunity Manager 1.0 50-device license (J9060A)

ProCurve Network Immunity Manager is a plug-in module for ProCurve Manager Plus 2.2 that provides a rich toolset to manage internal network threat detection and response in a wired and wireless network environment.

ProCurve Network Immunity Manager 1.0 +100-device license (J9061A)

ProCurve Network Immunity Manager is a plug-in module for ProCurve Manager Plus 2.2 that provides a rich toolset to manage internal network threat detection and response in a wired and wireless network environment.

ProCurve Network Immunity Manager 1.0 unlimited-device license (J9062A)

ProCurve Network Immunity Manager is a plug-in module for ProCurve Manager Plus 2.2 that provides a rich toolset to manage internal network threat detection and response in a wired and wireless network environment.
